

## **ISEE New Researcher abstract award winners:**

Marie Pedersen, Birth Weight, Head Circumference and Exposure to Ambient Air Pollution during Pregnancy: A European Cohort Study (ESCAPE)

Megan Horton, Associations between Prenatal Exposure to Polybrominated Flame Retardants and Infant Birth Outcomes

## **ISEE student poster award winners:**

Elaine Fuertes, A Global Analysis of Associations Between Climate, Vegetation and Intermittent and Persistent Rhinitis Prevalence

Thuy Lam, Age at Sexual Maturity and Organochlorine Exposure among Russian Boys,

Verena Jurgens, Bayesian Spatio-temporal Modelling of Tobacco-related Cancer Mortality in Switzerland

## **ISES Student Poster Competition Winners 2013**

1<sup>st</sup> place: Sutyajeet Soneja, Assessment of Household Emissions due to Cookstoves in Southern Nepal

2<sup>nd</sup> place: Nosiku Munyinda, An Analytical Chemistry Approach to Understanding a Public Health Problem: Exposure Assessment of DDT in Selected Recently Exposed Communities of Zambia

3<sup>rd</sup> place: Cynn timer Curl, Assessment of Dietary Exposure to Organophosphorus Pesticides Using Food Frequency Questionnaires and Information on Organic Food Consumption Habits

Honorable mention: Jill Schulte, High-Density Air Sampling of Traffic Pollutants, Including 1-Nitropyrene, to Inform Fine-scale Spatial Models of Diesel Exhaust

Honorable mention: Colleen Reid, Spatio-Temporal Modeling of Wildfire Smoke Exposure in Northern California Using Satellite Data and Chemical Transport Models

## **ISIAQ Student Poster Competition Winners 2013**

1<sup>st</sup> place: Jacob Mensah-Attipoe, Susceptibility of Green and Non-green Building Materials to Microbial Growth

1<sup>st</sup> runner up: Kim Angelon-Gaetz, "Free to Breathe, Free to Teach" Study: Determinants of Relative Humidity Control in Schools

2<sup>nd</sup> runner up: Wenjuan Wei, Formaldehyde Emissions from a Life Reference: Emission Parameters and Factorial Studies
